

MOTORCYCLE BATTERIES & ACCESSORIES

2017
2018

LANDPORT EUROPE

Official partner of the Dynavolt Intact GP Moto2 Team

TABLE OF CONTENTS

BATTERIES

LITHIUM BATTERIES LIFEPO4 technology, 100% maintenance free.....	4 - 5	
GEL BATTERIES GEL technology, 12V, completely sealed, 100% maintenance free	6 - 7	
SLA BATTERIES AGM technology, 12V, completely sealed, 100% maintenance free	8 - 9	
AGM BATTERIES AGM technology, 12V, maintenance free, including fitting acid pack	10 - 11	
DRY BATTERIES Conventional batteries, 6V/12V	12 - 15	
Lawn & Garden Batteries	16 - 17	
Terminals & Layouts	18 - 19	

CHARGERS & ACCESSORIES

Chargers & Accessories.....	20 - 25	
-----------------------------	---------	---

BATTERY APPLICATION LIST

Battery crossover list	26 - 27	
Moped, motorcycle & scooter	28 - 81	
Watercraft	82 - 85	
All Terrain Vehicle	86 - 95	
Snowmobile	96 - 99	
Technical information	100 - 103	
Disclaimer and terms & conditions	104 - 105	

LITHIUM BATTERIES

LiFePO4 technology, 100% maintenance free

**LITHIUM
BATTERY**

* Lithium batteries replace many lead acid batteries. For all alternative batteries please see our battery crossover list on page 26-27.

Key benefits of Lithium LiFePO4 technology

- **Ultra-light weight** – only 1/3 of the weight of similar lead-acid batteries.
- **Excellent cycle life** – over 2000 charge cycles possible (lead-acid batteries up to 300 charge cycles, gel batteries up to 500 charge cycles).
- **Excellent value for money** – up to 6 times longer service life possible compared with conventional motorcycle batteries.
- **Up to 50% more performance.**
- **Perfect shelf life** – up to 1 year without recharging is possible (lead-acid batteries require recharging after 6 months).
- **Big coverage** – only 8 types cover all common types and technologies.
- **Fast charge with high charge current** – charging current up to 10 times than normal current is possible.
- **Easy installation** – mountable in any position, easy adapters included.
- **Waterproof** – according to IP-classification IP65.
- **No hazardous goods** – contains no acid or heavy metals like lead, cadmium or hydrargyrum (mercury).

GEL BATTERIES

*GEL technology, 12V, completely sealed,
100% maintenance free*

CHARGERS & ACCESSORIES

LANDPORT EUROPE

Art. No.	Description	Volt	Amp	
PC SPI2	Landport Charger/Maintainer Automatic charger for lead-acid batteries up to 25 Ah 3x faster: multi-stage charging for added precision, safety and battery life. Powered by Shumacher	6/12 V	2,0 A	
PC SPI3	Landport Charger/Maintainer Automatic charger for lead-acid and LITHIUM LIFEPO4 batteries up to 50 Ah 3x faster: multi-stage charging for added precision, safety and battery life. Powered by Schumacher	12 V	3,0 A	
PCBD 1000	Battery Driver 1000 Automatic charger for all types from 5Ah upto 15Ah	12 V	1,0 A	
PCBD 2000	Battery Driver 2000 Automatic charger for all types from 15Ah upto 32Ah	12 V	2,0 A	
PCBD MC900	Plug-in charger for all types	6/12 V	0,9 A	
PL B100	Lithium Jumpstarter Suitable for 12V starter batteries pocket-size & ultra-light weight	12 V		
PM MDX-325P PM MDX-335P (on request)	Midtronics Battery Testers 100-900 CCA (EN) with integrated printer	12 V		

Art. No.	Description	Volt	Amp	
PS SC10 NEW!	SC Power Premium Charger - Maintainer Automatic charger for all lead acid batteries (conventional, gel, AGM) up to 60Ah	6/12V	1,0A	
PS SC38 NEW!	SC Power Premium Charger - Maintainer Automatic charger for all lead acid batteries up to 120Ah and 12V lithium batteries (LiPO and LiFePO4)	6/12V	0,8/3,8A	
PS SC70 NEW!	SC Power Premium Charger - Maintainer Automatic charger for all lead acid batteries up to 240Ah and charging programs especially for start-stop EFB/AGM (OBDII cable included)	12V	1,8/7,0A	
PS SCZ10 NEW!	SC Power Entry Level Charger - Maintainer Automatic charger for all lead acid batteries up to 40 Ah as charger, up to 120 Ah as maintainer	6/12V	1,0A	
PS SCACC01 PS SCACC02	SC Power permanent connection cable with fuses SC Power cigarette lighter socket			
PS SCACC03	SC Power battery and charging system voltmeter tester			

Art. No.	Description	Volt	Amp	
PG GYSTECH 750	GYS - efficient, compact and light Automatic charger for all lead acid batteries from 1,2Ah upto 20Ah	6/12V	0,75A	
PG GYSTECH 3800	GYS - powerful, compact and light Automatic charger for all lead acid batteries from 1,2Ah upto 60Ah	12V	0,8/3,8A	
PA BATTERYGUARD	Battery Guard With the Battery-Guard and Apple or Android App, you can now check your battery's state of charge quickly and easily			
BALV 100001	Sulphuric Acid 37% 1 ltr			
BALV 100001A	Lip for acid bottle 1 ltr			

BATTERY CHARGER/MAINTAINER

2A Microprocessor Controlled

PC
SPI2

**"CONNECT IT
& FORGET IT"**
All year long

EXTEND
BATTERY
LIFE

**SAVE
MONEY**

CE

FEATURES:

- **AUTOMATIC 2-AMP BATTERY CHARGER/MAINTAINER**
- **MICROPROCESSOR CONTROLLED**
Multi-stage charging for added precision, safety and battery life
- **AUTO-VOLTAGE DETECTION**
Automatically detects 6 or 12 volt batteries
- **FLOAT-MODE MONITORING**
Automatically maintains optimum battery charge
- **QUICK-CONNECT HARNESS**
Attach either connector into place in seconds
- **REVERSE HOOK-UP PROTECTION**
Helps protect battery and charger from damage
- **HOOK ATTACHMENT**
Allows the unit to hang outside the work area for safety and convenience

SPECIFICATIONS:

- **INPUT:** 230V AC 50HZ, 0.5A
OUTPUT: 6/12V DC @ 2A
- **CONTENTS:** 1 SPI2 2 AMP battery charger/maintainer, 1 Clamp adapter, 1 24" Fused ring leads harness with weather cap, 1 manual

USAGE:

- Automotive/powersports: car motorcycle, ATV, RV, boat and classic car batteries
- Ideal for maintaining stored, power sport and automotive batteries

MULTI-STAGE CHARGING

Faster, smarter, safer.

SCROLLING DIGITAL MESSAGING:

The easy-to-read, animated display provides step-by-step instructions to properly charge your battery. "FULLY CHARGED AUTO MAINTAINING", "CONNECT CLAMPS", and "ANALYZING BATTERY" are some of the scrolling diagnostic prompts the unit provides, 4 characters at a time, to make the charging and maintaining process effortless.

NEXT GENERATION IN LITHIUM-ION TECHNOLOGY

SPECIFICATIONS:

- INPUT: 230V AC 50HZ, 0.6A
OUTPUT: 6/12V DC @ 3A
- CONTENTS: 1 SPI3 3 Amp battery charger/maintainer, 1 Clamp adapter, 1 24" Fused ring leads harness with weather cap, 1 manual

USAGE:

- Automotive/power sports: car motorcycle, ATV, RV, boat and classic car batteries
- Ideal for maintaining stored, power sport and automotive batteries

LANDPORT BATTERIES:

Technical information

BATTERIES

LANDPORT EUROPE

GROUND RULES FOR CHARGING BATTERIES

A lot of battery problems are caused by incorrect charging. For this reason you will find below some relevant items concerning batteries and battery chargers.

1. Do you use the right battery charger and is it still up-to-date?

- Please only use approved battery chargers
- Do not use any welding generators or anything like that
- In the case of non-observance of these instructions, the battery can be destroyed
- When the battery explodes, the highly explosive oxyhydrogen gas can cause damage to your health
- Please note the loading instructions
- Well ventilated rooms are necessary
- Get the battery charger checked every 2 years

2. Is the battery connected in the right way?

Red = positive pole (+) Black or blue = negative pole (-)

- The clips must be clean and free of oxyd
- Cable length and the kind of cable must be adjusted to the capacity of the battery charger
- In the case of a quick loading process, please open the plug of the battery
- Due to nowadays battery technologies, the plugs do not have to be opened at a normal charging process
- Please observe the battery when you charge it

3. Which are the main regulations of the loading techniques when using manual battery chargers?

The charging current of the battery chargers should not exceed 10 percent of the battery capacity

i.e. 6 Ah > 0,6 Ampere charging current

12 Ah > 1,2 Ampere charging current

4. When is the loading finished?

The loading is finished when the battery discharger indicator is in zero position or when the charging current is constant over a period of 45 minutes.

5. What to do when the battery cannot be loaded?

When the battery voltage exceeds more than proportional (approx. 15 Volt) or no current is streaming, then you can no longer load the battery. If you use automatic battery chargers without volt or ampere meter, the indicator immediately states loaded.

6. What is forbidden when during loading the highly explosive oxyhydrogen gas arises from electrolysis?

- Open fire
- Smoking

7. What is to observe when using recombination batteries (fleece or gel)?

You have to observe special loading instructions for Landport batteries.

In the case of hibernation of the battery in the vehicle, you must observe the following:

- When the battery is still installed, the connecting cable must be disconnected due to the sneaking current
- When the battery is uninstalled, it must be stored in a dry, shielded place at a temperature of 0°C to 10°C and must be protected against light. This reduces the risk of self-unloading.
- The battery should always be stored in a charged state
- Charging: the charging current must be approx. 1/10 of the capacity. For example:
12 Ah corresponds to a charging current of 1,2 Ampere. Please only use the recommended battery chargers.
- If the battery cannot be charged: when the battery voltage exceeds more than proportional (approx. 15 Volt) or when there is no current, you cannot charge the battery anymore as the current is not conductive
- From each charging, highly explosive oxyhydrogen gas arises. Therefore, smoking, open fire and light is forbidden. Batteries must always be connected correctly.
- A well charged battery can be stored without problems for half a year
- When re-using the battery after a long time of non-use, it is absolutely necessary to charge it again before use

PUTTING THE DRY PRE-CHARGED BATTERY INTO OPERATION

When using the battery, the acid temperature (battery temperature) should be at least 10°C.

Filling of the battery: the battery should be filled up only to the max. acid mark.

It may not be filled more than 10-15 mm over the lead plates.

Please do not fill too much acid in the battery.

Activating time: depending from the temperature up to 30 minutes.

After having activated the battery, you must check, before the battery is installed in the vehicle, whether the voltage between the poles is at least 12,5V or the density of the acid is at least 1,28.

In case the battery doesn't get warm whilst filling or doesn't reach the above indicated figures after filling and activating time, you must follow the ground rules as mentioned below:

LOW SELF-DISCHARGE

Due to the use of special lead alloy grids, batteries may be longer charged with only some self-discharge.

GREATER TERMINAL VOLTAGE

At lower temperature, batteries can supply greater terminal voltage over a longer period of time than conventional batteries.

HOW TO REDUCE SULFATE CRYSTAL AND EXTEND BATTERY LIFE

Anti-sulfation is the answer. Our anti-sulfation is a special, chemical formula which can effectually reduce sulfate crystal buildup on battery plates.

PUT BATTERIES TO TEST BOTH WITH AND WITHOUT ANTI-SULFATION

For comparison reasons we connected each kind of above batteries with a 10 watt bulb and simulated a constant dis-charge condition. Although the batteries were totally drained, there was no problem to recharge and they made a 90% recovery with anti-sulfation after one week. But without anti-sulfation, they were rendered useless due to sulfation.

WHAT IS CURRENT DRAIN?

No matter if you turn off the ignition or not, the battery stands in a discharged condition because the electric accessories use the current from the battery. This continuous discharge is called current drain.

WHAT IS SULFATION?

Sulfation is a phenomenon. With batteries continuous current drain and battery plates exposed to the air, the low electrolyte level causes the active lead to crystallize on the battery plates. In this case the battery will not hold the charge and cannot be restored to full capacity.

DISCLAIMER

Users are cautioned that the information in this book was the most current information provided to us at the time of publication. The information is subjected to change without notice. Users should use the most current edition of the Landport Motorcycle Battery Replacement Information Book. Landport expressly denies any responsibility for the accuracy provided to us. While we have made every effort to accurately catalogue the replacement battery information contained in this book, Landport

denies any liability for damages as a consequence of using the information in this book. Users should also attempt to obtain replacement battery information from the o.e. manufacturer's user manual or service department for their specific application.

All orders are being agreed and executed with our general sales- and delivery conditions, as registered at the chamber of commerce, under number 18050673.

GENERAL TERMS & CONDITIONS OF DELIVERY AND PAYMENT OF LANDPORT B.V.

GENERAL

- 1.1 Landport's General Terms and Conditions apply to all deliveries of goods and the provision of services by Landport to the Customer.
- 1.2 Additions or changes to these General Terms and Conditions shall only be binding if they have been confirmed by us in writing. Any conditions of the Customer shall not apply.

OFFERS

- 2.1 Our offers are without obligation, unless an offer explicitly states otherwise.
- 2.2 We are only bound after we have accepted an order in writing or by e-mail, or after we have actually carried out an assignment.

PRICE

- 3.1 The prices referred to in catalogues, price lists and the like are without obligation and can be changed by us. At the customer's request we shall confirm in writing the prices that apply at any particular point in time.
- 3.2 Our offer shall state whether the sales price offered therein is without obligation or binding.
- 3.3 The sales prices referred to in our offers always exclude VAT.
- 3.4 The offer shall also state which taxes, entitlements, excises and levies imposed by the government are not included in the sales prices.
- 3.5 Changes in the taxes, etc. referred to in 3.3 and 3.4 shall be charged on to the customer, in which case the Customer shall not be entitled to cancel the purchase or order.
- 3.6 Changes in factory or importer's prices, in exchange rates, etc. shall also be charged on to the Customer, in which case the Customer shall be entitled to cancel the purchase or order without charge, by reporting such to us in writing within one week after we have informed the Customer of the change.

DELIVERIES

- 4.1 Delivery deadlines issued by us are determined to the best of our ability on the basis of the data known at the time the agreement was entered into.
- 4.2 We are not bound by delivery deadlines which cannot be met, nor are we liable for the resulting loss or damage, unless the exceeding of the delivery deadline can be attributed to intent or gross negligence on our part.
- 4.3 In the event of inordinate exceeding of the delivery deadline, we shall consult with the Customer. If said consultations do not lead to the result desired by the Customer and ourselves, the Customer and we shall be entitled to cancel the agreement without charge.
- 4.4 We shall have fulfilled our obligation to deliver by offering the goods once to the Customer, in accordance with that stated on the matter in the offer or agreement. The customer shall in that case be obliged to take receipt of the goods.
- 4.5 In the event of non-receipt, we shall put the goods into storage at the expense and risk of the Customer. In such cases, our warehouse shall apply as the delivery destination and the invoice for the delivered goods, plus a storage surcharge of 15%, as a notification of storage. We shall charge the Customer for all the costs of retention and storage, plus a 25% surcharge.
- 4.6 The risk related to the goods shall pass to the Customer at the moment of delivery.
- 4.7 Complaints relating to deficiencies which are discernible upon delivery or after inspection must be communicated to us as soon as possible in writing and, in any event, no later than five working days after delivery.

OWNERSHIP

- 5.1 Our ownership of the goods passes to the Customer after the latter has fulfilled all payment obligations vis-à-vis us.
- 5.2 The Customer is not entitled to alienate or encumber the goods or transfer them in any other way to the control of third parties as long as ownership has not been transferred, unless such occurs with our explicit, prior permission. We are entitled to attach conditions to said permission.

PAYMENT

- 6.1 Payment shall be made in cash (which also includes transfers to our bank or Giro account) upon delivery, unless agreed otherwise in writing.
- 6.2 In the event of non-payment or late payment, the Customer shall be legally in default, without a notice of default having to be given. The Customer shall then owe us interest from the due date of the invoice which shall be equal to the statutory interest rate, increased by 3% each year. In addition, we are entitled to pass on the claim for collection, whereby the Customer shall owe us all the costs incurred during collection. The level of these costs is set at 15% of the invoice amount, with a minimum applying of € 100,= such without prejudice to the interest referred to in the second sentence of this section and without prejudice to any legal costs owed.

GUARANTEE & LIABILITY

- 7.1 We shall not provide any other guarantee with regard to the goods than that issued by our supplier. These guarantee conditions are to be issued to the Customer upon delivery of the goods or are available for perusal at our premises and shall be sent to the Customer on request.
- 7.2 If the supplier's guarantee conditions are judged by a court not to be binding, the present General Terms and Conditions of Landport shall exclusively apply.
- 7.3 Our guarantee obligation covers the replacement or repair of goods to the best of our ability during the guarantee period which exhibit manufacturing or material defects, in so far as we can recover the costs of replacement or repair from our supplier.
- 7.4 If the Customer wishes to appeal to our guarantee obligations, it shall act in accordance with our instructions as regards the making available to us of the faulty products.
- 7.5 This guarantee lapses in the event of defects to the goods which are the consequence of wear and tear, incompetent use, a lack of care, any damage inducing event which occurs after delivery or any change made by the Customer or third parties.
- 7.6 Our liability is explicitly limited to that referred to in the above sections of this article. We are not liable for any loss or damage, no matter on what account such has occurred, including all direct and indirect loss or damage, such as consequential loss or damage or trading loss. In the event of us being liable, this shall, at all times, be limited to the amount or amounts for which we are insured.

ANNULMENT

We are entitled to annul the agreement with immediate effect without having to issue a notice of default and without judicial intervention and without being liable for any compensation, if the Customer fails to fulfil any obligation arising from the agreement, or fails to do so on time, if the Customer is declared bankrupt, is granted a (provisional) suspension of payments, if its business is liquidated or if the Customer loses the disposal of its property. All our claims are to be immediately due and payable.

APPLICABLE LAW AND DISPUTES

Dutch law applies to all agreements which are subject to these terms and conditions. Unless the law imperatively designates a different court, all disputes shall be exclusively settled by the competent court in 's-Hertogenbosch.
